TEAM COMPOSITE PERFORMANCE INDEX (TCPI)

The Team Composite Perfomance Index is a measure that combines the identified categories "percentage of competitors that a team has outperformed" within that category. The calculation of the TCPI categories are weighted (SEE FIGURE BELOW CATEGORY). A team that ranks first in a category is given a TCP of 100%. The TCP then is reduced as a % of the number of eligible teams for each positional change. The INDEX calculates the percentage of teams that a team outperforms across the category weightings. It does not consider the magnitude in the actual category performance differences between the teams. A "NR" indicates that a team did not meet the minimum number of NCAA "attempts" to be considered.
