## THE STARTING 5 -

>> Vanderbilt comes into Wednesday's matchup against Dayton sporting a 10-1 overall record. Graduate student Jordyn Cambridge collected her fourth double-double of the season in a 72-50 win over Lipscomb this past Sunday. Cambridge scored 23 points and pulled down 14 rebounds in the victory over the Bisons.

>> The Commodores' 10-1 record marks the second-best start to a season through the first 11 games in program history. Vanderbilt has held a 10-1 mark through the first 11 games 14 different times, with the most recent occurrence taking place during the 2016-17 campaign.

>> Vandy comes into its matchup against the Flyers seeking their best start to a season through 12 games since the 2011-12 campaign. The Commodores opened the 2011-12 season with a 12-1 overall record.

>> Vanderbilt and Davton will meet for the ninth time on the hardwood this Wednesday. The Commodores hold the all-time series lead at 5-3, though Vandy will be looking to snap a twogame losing streak to the Flyers. Dayton won the last meeting, 81-56, back on Nov. 18, 2015, in Dayton, Ohio.

>> > The Dores are a perfect 6-0 at home this season, with each win coming against a nonconference foe. Vanderbilt has won eight-straight home games against nonconference teams dating back to last season.

## GAME COVERAGE

Wednesday's contest will stream live at 1 p.m. on SEC Network+ via the Watch ESPN app. Fans can also listen to the game on the Vanderbilt Commodores app or on 94.9 The Fan in the Nashville area.

## HOLIDAY HOOPS

Wednesday's game will be the final Holiday Hoops contest of 2023 Stop by the marketing table to grab a Holiday Hoops t-shirt while supplies last.

## MIDDLE TENNESSEE TORNADO RELIEF

Fans are encouraged to bring new, unwrapped toys and basic and essential hygiene items to Wednesday's game as part of Vanderbilt's support relief efforts following the tornadoes that devastated the Middle Tennessee region. Collection bins from the Community Resource Center will be located on the concourse of Memorial Gymnasium.

## NET RANKING

Vanderbilt holds a NET ranking of 60 coming into the weekend, which is a 39-spot improvement from the Commodores' final NET ranking of the 2022-23 season. The NET is an evaluation tool used by the NCAA Tournament Selection Committee to determine seeding and at-large bids.

## **RACKING UP THE STEALS**

Graduate student Jordyn Cambridge has collected at least one steal in each of her last 49 games. The Nashville, Tennessee, native leads the SEC in steals with 48, which is the second-most in NCAA Division I this season. Cambridge's 4.4 steals per game also paces the SEC and is the second-best steals per game average in the nation.

## SUCCESS AGAINST NONCONFERENCE TEAMS

The Commodores have won 12 of their last 13 games against nonconference teams. The lone loss during this stretch is an eight-point loss at No. 5/10 NC State back on Nov. 29. Vanderbilt is 30-12 against non-SEC teams under head coach Shea Ralph.

### **SHE'S ALSO A SCORING THREAT**

Jordyn Cambridge has displayed an improved set of offensive skills since missing last season due to injury. The guard has had two games this season where she has scored 20 or more points, while she has scored double-digit points in all but one contest this season. Cambridge leads the team with 17 made 3-pointers, which is a new career-high in made 3-point field goals in a season for the Nashville, Tennessee, native. She is shooting a career-high 34.7% from behind the arc, a 10.7% improvement over her career shooting average from behind the arc.

### SHOOTING EFFICIENCY

Junior Sacha Washington enters the week ranked fourth in the SEC with a 55.4% shooting percentage. Washington's field goal percentage is the 48th-best in NCAA Division I this season. She isn't the only Commodore shooting with high efficiency this season, as graduate student Jordyn Oliver is shooting 62.5% (30-of-48) from the field this season, which would lead the SEC if she had enough shot attempts to qualify.

### **MOVING UP THE STEALS LIST**

Jordyn Cambridge's 282 career steals are the fourth-most in program history. The guard needs nine more steals to move past Donna Atkinson (286; 1983-86) for third on the list.

## LONG RANG OPTIONS

Vanderbilt has five players that have hit 10 or more 3-pointers this season. Graduate student Jordyn Cambridge leads the team with 17 made 3-point field goals, while sophomore Justine Pissott and freshman Aga Makurat have hit 14 shots from behind the arc each. Sophomore Iyana Moore and freshman Madison Green have each sank 10 3-pointers each on the year.

# **DORE NOTES**

#### **30-POINT PERFORMANCE**

Junior Sacha Washington posted her first 30-point performance at any level in the win over Louisiana Tech, as she scored a career-high 33 points. The 6-2 forward became the first Commodore to have a 30-plus-point performance since Ciaja Harbison's 41-point effort against Texas A&M on Jan. 29, 2023. It is Washington's sixth career game scoring 20 or more points, three of which have come this season. Washington leads Vanderbilt in scoring this season at 16.8 points per game.

#### ASSIST-TO-TURNOVER RATIO

The Commodores' assist-to-turnover ratio is 49th best in NCAA Division I at 1.37. Graduate student Jordyn Oliver's 2.43 assist-to-turnover ratio ranks 30th nationally, while it is fourth-best in the SEC.

#### SHARING THE BALL

The Commodores have been dishing out the assists this season. Vanderbilt's 16.4 assists per game ranks fourth-best in the SEC, while it is 62nd nationally. Graduate student Jordyn Cambridge's 4.5 assists per game is the 62nd-best average in NCAA Division I.

#### ESPN.COM TEAM OF THE WEEK

ESPN.com named the Vanderbilt women's basketball team its Team of the Week on Nov. 27 after going undefeated at the South Point Thanksgiving Shootout. The Commodores are off to their best start since the 2011-12 season, as Vanderbilt enters the weekend at 7-1.

#### **PICKING THEIR POCKETS**

Vanderbilt enters Thursday leading the SEC in steals per game at 12.2. Vandy's 12.2 steals per game average is also 16th-best nationally. Graduate student Jordyn Cambridge also paces the SEC in steals with 48. Cambridge's 48 total steals this season are second-most in NCAA Division I.

# **DORE NOTES**

#### **CAMBRIDGE'S PUTTING UP THE POINTS**

Graduate student Jordyn Cambridge scored a career-best 28 points in the win over Northern Iowa to close out the South Point Thanksgiving Shootout. It was Cambridge's third career game with 20-plus points.

#### **DOUBLE-DOUBLE THREATS**

Jordyn Cambridge has recorded four double-doubles and Sacha Washington has recorded three double-doubles this season. They are just one of four sets of teammates in NCAA Division I that have collected at least three doubledoubles each this season. The duo recorded a double-double in the same game on two separate occasions this season, with the first coming at UT Martin, and then again vs. Western Kentucky.

#### A MASTER THIEF

Graduate student Jordyn Cambridge's 48 steals are the second most collected by an NCAA Division I player this season. The guard leads the SEC in steals per game at 4.4, which is also the second-best steals-per-game average in the country.

#### **BIG THREE**

Vanderbilt had three players collect a double-double in the 77-74 win over Western Kentucky. Graduate student Jordyn Cambridge had a 13-rebound, 11-point performance, while fellow graduate student Jordyn Oliver posted 15 points and 10 rebounds. Junior Sacha Washington collected her third-straight double-double in the win over the Hilltoppers with a 16-point, 10-rebound effort.

#### WASHINGTON'S BEST

Sacha Washington established new career highs in assists (7), free throws made (10), and rebounds (17) against Fairfield. She also recorded her first career game with 20-plus points and 15-plus rebounds against the Stags.

#### **DOUBLE TROUBLE**

Junior Sacha Washington and Jordyn Cambridge each recorded a doubledouble in the win at UT Martin. Washington had a game-high 18 points and 10 rebounds against the Skyhawks, while Cambridge collected 16 points and a game-best 12 caroms.

Washington and Cambridge were also the last two Commodores to record a double-double in the same game before Thursday's performance. The last time they accomplished the feat was March 2, 2022, against Texas A&M in the first round of the SEC Tournament. Cambridge recorded a triple-double with 15 rebounds, 12 points, and 10 assists against the Aggies, while Washington had 12 points and 10 caroms.

#### **OFFENSIVE BARRAGE**

The Commodores put up the most points in the Shea Ralph era in Monday's season opener, as Vanderbilt scored 98 points in the 47-point win over Kennesaw State. The 98 points are also the most Vandy has scored in a season-opening game since putting up 102 points against Saint Francis (Pa.) to open the 2004-05 campaign.

#### WELCOME BACK

Graduate student Jordyn Cambridge and junior Iyana Moore each had a double-digit scoring performance in their first game back from injury. Each player scored 11 points in the season-opening win against Kennesaw State, which was their first game played for Vanderbilt in 592 days.

#### LET IT RAIN

Sophomore Justine Pissott nailed a game-best three 3-point field goals against Kennesaw State en route to a 12-point performance. It matches Pissott's collegiate-best performance for 3-point field goals made in a game, while it is her second double-digit scoring performance at the college level.

#### **IMMEDIATE IMPACT**

A total of six players made their Vanderbilt debut in Monday's win against Kennesaw State. The group made an immediate impact for the Commodores, as they scored a combined 51 points. Freshman Khamil Pierre led the newcomers with 14 points, while Justine Pissott, a transfer from Tennessee, tallied 12 points. Freshman Madison Greene came off the bench and scored nine points, while freshman Aga Makurat and Duke transfer Jordyn Oliver, a transfer from Duke, each registered eight points in a starting role.

#### PRESEASON SEC HONORS FOR CAMBRIDGE

The media named graduate student Jordyn Cambridge to the 2023-24 Preseason All-SEC second team. The 5-9 guard returns after missing the 2022-23 season due to injury. The last time she was on the court, Cambridge averaged a career-best 10.7 points, 4.4 assists, and 3.9 steals per game during the 2021-22 campaign. The two-time All-SEC defensive team selection holds Vanderbilt's single-season record for steals, collecting 129 steals during the 2021-22 season.

#### **RETURNING FIRE POWER**

Vanderbilt has a pair of double-digit scorers returning to the roster that missed the 2022-23 season, with graduate student Jordyn Cambridge and junior Iyana Moore being granted a new bill of health this season. The duo averaged a combined 23.4 points per game in their last healthy season on the court in 2021-22. Moore chipped in 12.7 points per game en route to an All-SEC Freshman Team selection, while Cambridge was putting up 10.7 points per contest and earned a spot on the 2021-22 All-SEC Defensive Team. Junior Sacha Washington also brings back 11.1 points and a team-best 7.4 rebounds per game from a season ago.

#### A TRIPLE-DOUBLE THREAT

Graduate student Jordyn Cambridge is just one of two SEC players heading into the 2023-24 season that has recorded a triple-double in their career. Cambridge's triple-double performance came in the first round of the 2022 SEC Women's Basketball Tournament, where she had 15 rebounds, 13 points, and 10 assists vs. Texas A&M. She is just the second player in SEC history to post a triple-double at the SEC Tournament, joining Georgia's Terese Edwards Georgia (1986).

#### **INCOMING TRANSFERS**

Vanderbilt landed two players out of the transfer portal this offseason, as head coach Shea Ralph and the Commodores welcome in graduate student Jordyn Oliver from Duke and sophomore Justine Pissott from Tennessee. Both are former McDonald's All-American selections, with Oliver earning the honor back in 2019 and Pissott being selected to the 2022 team. Both players bring NCAA Tournament experience to Memorial Gym, as Oliver and Pissott helped their respective programs collected a win in last season's NCAA Tournament.

#### PACING THE SEC

Jordyn Cambridge enters the 2023-24 season as the SEC's active leader in steals with 234. The 5-9 guard also has the second-most assists among active SEC players with 291 career assists.

#### **EXPERIENCED BACKCOURT**

Vanderbilt's projected starting backcourt will feature a pair of players who have logged over 80 career games at the NCAA Division I level. Graduate student Jordyn Cambridge has played in 88 games in her Vanderbilt career, while fellow graduate student Jordyn Oliver, who is in her first year with the Dores after transferring from Duke, has logged 82 career games.

#### SHE'LL TAKE THAT

Jordyn Cambridge enters the 2023-24 season with the eighth-most steals in Vanderbilt history with 234 career steals. The Nashville, Tennessee, native is 105 steals away from breaking the Commodore's all-time steals record of 338 steals, which is currently held by Deborah Denton (1986-89).

#### SEC PROJECTIONS

Vanderbilt will be out to prove the preseason prognosticators wrong this year. The Commodores were selected to finish 13th in the SEC Preseason Coaches Poll and 14th in the SEC Media Poll.

# **RALPH'S FILE**

#### Head Coach Vanderbilt (2021-Current)

- 38-39 overall record through three seasons at Vanderbilt - Led Vanderbilt to its first postseason bid since the 2013-14 campaign with an appearance in the 2022 WNIT in her debut season (2021-22)

Four players have earned All-SEC honors under Ralph's first two seasons

#### Assistant Coach UConn <u>(2008-2021)</u>

- 462-22 in 13 seasons as an assistant coach at UConn - Won Six NCAA National Championships - 12 Final Four Appearances - 16 Conference Titles - Coached 21 WNBA Draft Picks, 9 top-5 picks, three No. 1 picks

#### Assistant Coach <u>Pittsburgh (2003-2008)</u>

- 86-66 in five seasons as an assistant coach at Pittsburgh - 2008 Sweet 16 Appearance - Two NCAA Tournament Appearances (2007 & 08) - 2006 WNIT Final Four

## Player

UConn (1996-2001) - Drafted by Utah Starzz in 2001 WNBA Draft - Scored 1,678 career points, Ranks 8th in UConn history - Won 2000 NCAA National Championship - 2000 NCAA Women's Final Four MVP - 2000 Big East Player of the Year - 2000 All-American - 2000 Sports Illustrated Women's College Player of the Year - Honda Award Winner

# SHEA BALPH HEAD COACH THIRD SEASON UConn - '01

Shea Ralph was named the sixth head coach in Vanderbilt women's basketball history on April 13, 2021. The 2023-24 season marks her third leading the Commodores.

A seven-time national champion as a student-athlete or coach, Ralph arrived at Vanderbilt after spending the previous 13 seasons as an assistant coach alongside Geno Auriemma at the University of Connecticut. While serving as a coach at her alma mater, Ralph helped guide the Huskies to 12 Final Four appearances and six national championships, including a record four consecutive titles from 2013-16.

Vanderbilt was hit hard with a plethora of preseason injuries to begin the 2022-23 campaign. Coach Ralph was able to rally the Commodores and record a second-straight double-digit win season, marking the first time in six years that Vandy has posted back-to-back double-digit win campaigns.

During the 2022-23 campaign, Ralph guided Vanderbilt to a winning record inside Memorial Gymnasium for the 38th time in the last 40 seasons. The Commodores won nine games at Memorial Gym, which included victories over Texas A&M, Arkansas, and Kentucky.

Ralph was key in the development of Ciaja Harbison, who transferred into the

program for her graduate season and become one of the most prolific scorers in the SEC. Harbison earned second team All-SEC honors after averaging 19.6 points per game and shot 40.6% from the field. The only player in the SEC to score 40 points in a game this season, Harbison had three outings with 30-plus points among the 23 times she has scored in double figures while recording the highest scoring average of her collegiate career. Harbison has led the Commodores in scoring 16 times, assists on 20 occasions and steals in 15 games. Harbison tied a school record with 41 points and added five steals in a January win over Texas A&M

In her inaugural season, Ralph led Vanderbilt to its first postseason appearance since 2014. The Commodores reached the third round of the Women's National Invitation Tournament, their longest postseason run since 2013. Vanderbilt also recorded its first SEC Tournament victory in six years when it defeated Texas A&M 85-69 on March 2, 2022.

In all, Ralph accrued the third-most wins of any women's basketball coach in a debut season. That included a 63-59 victory against No. 15 Florida in Memorial Gymnasium on Feb. 24, 2022, the program's first win against a ranked opponent since 2020.

Ralph wasted no time helping individual student-athletes realize their full potential. Jordyn Cambridge, Iyana Moore and Sacha Washington earned All-SEC accolades during the 2021-22 campaign. Cambridge recorded the program's first postseason triple-double during the SEC Tournament, while she and Moore contributed to a program-record 17 3-pointers against Alabama State on Dec. 28, 2021.

Ralph was an instrumental figure in recruiting and player development with the Huskies. She mentored standouts like Paige Bueckers, who in 2020-21 became the first freshman to sweep the major national player-of-the-year

W

awards: the Naismith Trophy, Associated Press Player of the Year, USBWA National Player of the Year, Lieberman Award and Wooden Award.

In all, Ralph worked with 21 WNBA draft picks at UConn, including nine top-five picks and three No. 1 overall selections: Tina Charles, Maya Moore and Breanna Stewart.

Prior to returning to UConn as an assistant, Ralph spent five seasons at the University of Pittsburgh from 2003-08. She was instrumental in a period of unprecedented success, helping the Panthers improve from single-digit victories to at least 22 victories in each of her final three seasons. Pitt also reached the Sweet 16 for the first time in

program history in 2008.

As one of the most celebrated student-athletes in women's basketball history, Ralph ranks eighth in UConn's storied record book with 1,678 points. She also ranks among the program's all-time top 10 in career assists (456), steals (252) and field goal percentage (57.9). Ralph graduated from Connecticut in 2001 with a degree in exercise physiology.

In leading UConn to a national championship in 2000, Ralph was named an All-American and Big East Player of the Year. She was selected at the most valuable player in the 2000 NCAA Women's Final Four. She also won the Honda Award, presented to the premier female student-athlete in 12 collegiate sports, and the "Sports Illustrated for Women" Player of the Year.

Ralph was selected by the Utah Starzz in the 2001 WNBA Draft, but was unable to pursue a professional career due to a knee injury.

Ralph and her husband, Tom Garrick, have one daughter, Maysen. Currently a member of the Vanderbilt coaching staff, Garrick served as head coach of the UMass-Lowell women's basketball program from 2018-21 and previously served as a Vanderbilt assistant from 2009-15.

NASHVILLE, Tenn. - The Vanderbilt women's basketball team set the program record for most points scored in a first half, as the Commodores cruised to a 98-51 victory over Kennesaw State at Memorial Gymnasium in the 2023-24 season opener.

Vanderbilt unleashed an offensive barrage over the first 20 minutes of play against the Owls and never looked back. The Commodores set the program record for most points scored in a first half by scoring 66 points over the first two halves en route to a 47-point victory. The 98 points scored are the most points Vanderbilt has scored in the Ralph era.

A total of nine Commodores scored in the season opener, led by junior Sacha Washington's 16-point performance. Graduate student Jordyn Cambridge and junior Iyana Moore each took the court for the first time in 592 days after missing the 2022-23 season due to injury. The guards made the most of their return, as each player scored 11 points against the Owls. Cambridge also dished out a game-high seven assists and collected a game-best five steals.

Freshman Khamil Pierre and sophomore Justine Pissott each recorded double-digit points off the bench in their Vanderbilt debut, as Pierre tallied 14 points and six rebounds, while Pissott chipped in 12 points and led the team with three 3-point field goals. Pierre and Pissott were two of six Vanderbilt players who made their program debut against Kennesaw State. Freshman Madison Greene tallied nine points off the bench in her collegiate debut, while graduate student Jordyn Oliver and fellow freshman Aga Makurat each collected eight points in their first career start for Vanderbilt.

Vanderbilt shot 47.0% from the field against Kennesaw State, while limiting the Owls to shoot 33.3% from the floor. The Commodores did not allow a 3-point field goal over the final two quarters of play, as Vandy limited KSU to just 25.0% from behind the arc.

The Commodores jumped out to a 31-8 lead after 10 minutes of play and never looked back. Vanderbilt held a 37-point advantage heading into halftime after scoring a program-record 66 points over the first two quarters. Vandy jumped out to a game-high 51-point advantage late in the third quarter, as the Dores opened the frame by scoring the first 14 points to take an 80-29 lead.

MARTIN, Tenn. - The Vanderbilt women's basketball team battled back from a double-digit deficit in the second half Thursday night at UT Martin to score a thrilling 70-68 come-from-behind victory against the Skyhawks.

Vanderbilt's defense stood tall down the stretch in the comeback. UT Martin, who led for over 32 minutes of game time, sank a 3-point field goal with 3:39 left to play to give the Skyhawks a 68-65 lead. The Dores got a layup from junior Sacha Washington to bring Vanderbilt to within a point at 68-67 with 1:55 on the clock. The two teams would trade defensive blows before graduate student Jordyn Cambridge nailed a jumper with 35 seconds left to give Vanderbilt a 69-68 advantage.

Holding onto a one-point lead, the Commodores' defense had to make one more stop, as UT Martin had the ball with 11 seconds remaining. The Skyhawks got a baseline shot off, but it rimmed out and fell into the hands of freshman Madison Greene, who immediately called a timeout. After the break, UTM put junior Iyana Moore at the free throw line, where she would seal the 70-68 victory for Vanderbilt.

Vandy held UT Martin scoreless over the final 3:38 of the game, which enabled the Commodores to mount the comeback. Overall, Vanderbilt forced 14 UTM turnovers, which turned into 14 points off turnovers for the Dores.

Cambridge and Washington each recorded a double-double in the win over the Skyhawks. Cambridge flirted with a triple-double, as she put up 16 points and 12 rebounds to go along with a game-high six assists. Meanwhile, Washington registered a game-best 18 points and grabbed 10 caroms on the night.

Moore and Greene also registered double-digit points in the victory over UT Martin. Moore tallied 12 points to give the junior her second-straight double-digit scoring performance of the season, while Greene registered a career-best 11 points off the bench.

NASHVILLE, Tenn. - The Vanderbilt women's basketball team moved to 3-0 on the year, as the Commodores picked up a 73-70 victory over Fairfield on Sunday at Memorial Gymnasium.

Junior lyana Moore scored a season-high 25 points and hit three 3-pointers for the second-straight contest, while junior Sacha Washington recorded a double-double for the second-consecutive game by scoring 20 points and pulling down a career-best 17 rebounds. Washington flirted with her first career triple-double, as she dished out a career-best seven assists against the Stags. Graduate student Jordyn Cambridge also recorded double-digit points for the Dores with a 12-point effort.

Vanderbilt held a 14-point lead going into the fourth quarter at 59-45 but had to withstand a late rally from Fairfield. Washington nailed a jump shot to put the Commodores up 67-54 with 5:45 left to play. After Washington's bucket, the Stags went on a 16-4 run to pull to within a point of the Dores at 71-70 with 1:07 remaining in the contest.

The Commodore defense stood tall in the final minute of play, as Vanderbilt kept Fairfield off the scoreboard down the stretch. Washington would extend Vandy's lead to three at 73-70 after making a pair of clutch free throws with two seconds on the clock. Cambridge would seal the deal for the Dores on the ensuing possession, as she collected a steal to secure a three-point win.

The Commodores collected 15 steals in the contest and forced Fairfield into 26 turnovers, which led to 21 points for Vandy. The Dores also pulled down 17 offensive rebounds, which led to 19-5 advantage in second chance points.

NASHVILLE, Tenn. – A total of three Vanderbilt women's basketball players collected a double-double against Western Kentucky on Wednesday night, as the Commodores collected a thrilling 77-74 victory over the Hilltoppers at Memorial Gymnasium.

Graduate students Jordyn Cambridge and Jordyn Oliver, along with junior Sacha Washington each strung together a double-double on the stat sheet. Cambridge flirted with a triple-double against WKU, as she recorded a game-best 13 rebounds to go along with 11 points and eight assists. Oliver added 15 points and 10 rebounds to her ledger, while Washington posted her third-straight double-double with a 16-point, 10-rebound performance.

Freshman Aga Makurat provided an offensive punch off the bench for the Commodores. The 6-2 guard from Poland registered a career-high 18 points while hitting a season-best five 3-point fields in 16 minutes of action against the Hilltoppers.

With the win, Vanderbilt remains perfect to begin the 2023-24 season, as the Dores now stand at 4-0 on the year. It marks the second-straight season that Vandy has opened back-to-back campaigns perfect through four games. The last time Vanderbilt began two-consecutive seasons with four-straight wins came back during the 2008-09 and 2009-10 campaigns.

The two teams traded blows through the opening two quarters, as there were six lead changes in the first 20 minutes of play. Makurat gave the Commodores a 31-28 lead going into the half, as she sank a 3-point shot from the corner right before the halftime buzzer.

Vanderbilt saw its lead grow to as many as 11 points in the third quarter, as a layup from Washington put the Dores up 46-35 with 4:54 remaining in the stanza. Western Kentucky battled back and took a 53-52 advantage in the closing seconds of the third. Vandy once again ended a quarter with a buzzer-beating shot, this time coming from Cambridge, whose layup gave Vanderbilt a 54-53 lead going into the night's final frame.

Things were just as tight in the fourth, as the two teams were knotted up at 63-all with five minutes left to play. The Commodores got back-to-back 3-pointers from junior Iyana Moore and Makurat to go up 69-63 with 4:17 left to play.

The Hilltoppers would not go quietly, as WKU pulled to within a point of Vandy at 73-72 with 39 seconds left on the clock. Vanderbilt was clutch at the free throw line down the stretch, as the Dores went 4-for-4 at the charity stripe in the closing 15 seconds to secure the three-point victory.

NASHVILLE, Tenn. - The Vanderbilt women's basketball team pounced on Alabama State early on Monday and never looked back, as the Commodores defeated the Lady Hornets, 88-42, in Memorial Gymnasium.

Vanderbilt had a total of nine different players score a basket in the win over Alabama State. Junior Sacha Washington paced the Commodores with a season-high 24-point performance. Sophomore Justine Pissott registered a career-best 16 points, while graduate student Jordyn Cambridge tallied 13 points and seven assists. Freshman Aga Makurat scored double-digit points for the second-straight game with an 11-point effort off the bench for Vanderbilt.

With the victory, Vanderbilt improved to 5-0 on the year. Coupled with last season's 5-0 start, it marks the first time since the 2003-04 and 2004-05 campaigns that the Commodores have begun back-to-back seasons at 5-0.

Vanderbilt shot a season-best 59.3% from the field in the victory, while limiting ASU to 25.5% from the floor. The Commodores outscored the Lady Hornets 35-8 in points off turnovers, while Vandy held a 48-14 edge in points in the paint.

The Dores used an offensive barrage to separate themselves from the Lady Hornets in the opening quarter, as Vanderbilt outscored Alabama State 36-10 in the first stanza. The 36 points scored in the first were the most points the Dores have registered in any quarter this season.

Vanderbilt maintained a double-digit lead for the remainder of the contest against Alabama State. The Commodores used an 18-0 run between the third and fourth quarters to take a 46-point lead at 80-34 with 6:36 left to play. Vanderbilt led by as many as 48 points down the stretch before the Dores walked away with a 46-point victory.

LAS VEGAS - The Vanderbilt women's basketball team got a 21-point performance from junior Iyana Moore, while graduate student
Jordyn Cambridge collected a double-double, as the Commodores defeated Iowa State, 68-53, on Friday during the first game of
the South Point Thanksgiving Shootout.

Moore overcame a slow start to record her second 20-plus point performance of the season, as all 21 of her points were scored over the final three quarters of play. The junior scored nine points in the second quarter and used a personal 7-2 run in the frame to turn a 13-12 Vanderbilt lead into a 20-14 advantage. The Murfreesboro, Tennessee, native was also clutch down the stretch for Vanderbilt, as she registered eight points in the fourth quarter and went 4-of-5 from the free throw line.

Meanwhile, Cambridge recorded her third double-double of the season with a 12-point, 11-rebound performance against the Cyclones. Sophomore Justine Pissott and freshman Aga Makurat each tallied nine points in the win, while all nine players who played for Vanderbilt scored at least two points against ISU.

With the victory, Vanderbilt moves to 6-0 on the season. It is the first time since the 2011-12 campaign that the Commodores have opened a season with six-straight wins.

The two teams traded blows in the opening quarter, as Vanderbilt trailed lowa State, 12-11, after 10 minutes of play. Junior Sacha Washington scored the first points of the second quarter to give Vanderbilt a 13-12 lead, then Moore would go on to score seven of the game's next nine points to put the Commodores up by six points at 20-14. Vanderbilt allowed only four points in the second quarter to give the Dores a 28-16 advantage going into the locker room.

Vanderbilt led by as many as 15 points in the third quarter, as a pair of free throws from Moore put the Dores up 35-20 with 6:56 left to play in the frame. Iowa State would go on a 20-4 run from that point to cut the Vandy lead to a single point at 41-40 with a minute remaining in the third. Moore came up clutch again to close the third, as she sank a pair of free throws to give her team a 43-40 lead going into the final quarter.

The Commodores opened the fourth on an 11-3 run to take a double-digit lead they would never relinquish. Vanderbilt led by as many as 17 points in the fourth quarter before claiming a 15-point victory over Iowa State.

## **GAME RECAPS**

LAS VEGAS – The Vanderbilt women's basketball team got a career-best 28-point performance from graduate student Jordyn Cambridge on Saturday to help the Commodores collect a 68-64 victory over Northern Iowa.

The Commodores leave Las Vegas going a perfect 2-0 at the South Point Thanksgiving Shootout, with wins over Iowa State and Northern Iowa. Vanderbilt improves to 7-0 to open the 2023-24 season. It marks the first time since the 2011-12 campaign that Vanderbilt has won seven-straight games to open a season.

Cambridge set new career highs in points (28) and field goals made (11), while she matched her single-game best performance in 3-point field goals made with five against Northern Iowa. The guard also added a season-best seven steals to her ledger, six of which came during the first 20 minutes of play. Cambridge was selected to the South Point Thanksgiving Shootout All-Tournament team after she averaged a team-best 20.0 points per game in Las Vegas.

Graduate student Jordyn Oliver, sophomore Justine Pissott, and freshman Khamil Pierre each registered eight points in the win. The Commodores shot 43.8% from the field in the game and outrebounded the Panthers, 39-34. Oliver just missed a double-double, as she pulled down a season-high 11 rebounds.

The Commodore defense forced UNI into 17 turnovers, which Vandy turned into 19 points.

Vanderbilt used a 10-3 spurt to open things up in the first quarter. Cambridge scored six of the Dores' 10 points during the run, then she capped off the frame with a 3-pointer in the corner to give Vandy a 17-12 advantage. Cambridge scored a total of nine points in the opening frame.

The Commodores turned up the defensive pressure in the second quarter. Vanderbilt opened the frame on an 11-0 run to take a 28-12 advantage. Cambridge would hit her third 3-point field of the half to give Vanderbilt a 17-point lead at 31-14 with 3:48 left before halftime. The Dores forced UNI into nine turnovers in the second quarter, as Vanderbilt collected six total steals in the frame to help the Commodores take a 38-23 lead into the locker room.

Vanderbilt got back-to-back 3-pointers from Cambridge and Pissott early in the third quarter to give the Commodores a game-high 18-point lead at 46-28. Vandy maintained a double-digit lead for the remainder of the frame, as Cambridge ended the stanza by converting an old-fashioned 3-point play to give Vanderbilt a 55-42 advantage going into the fourth.

The Dores had to withstand a 13-2 run by Northern Iowa early in the fourth quarter, as the Panthers made it a one-possession game at 60-57 after a 4-point play with 5:21 remaining. Vanderbilt responded with a 5-0 run of its own to push its advantage back out to eight points at 65-57 after freshman Madison Greene scored on a putback layup. Vanderbilt was able to keep UNI at arms-length during the closing minute of the game, as the Commodores walked away with a 68-64 win.

RALEIGH, N.C. – The Vanderbilt women's basketball team was handed its first loss of the 2023-24 season Wednesday night, as the Commodores fell at No. 5/10-ranked NC State, 70-62, as part of the ACC/SEC Challenge.

Vanderbilt got a double-digit performance from graduate student Jordyn Cambridge and junior Sacha Washington in the loss at NC State. Cambridge scored a team-best 15 points against the Wolfpack to extend her double-digit streak to 11 games dating back to the 2021-22 season. Meanwhile, Washington collected 14 points against the Wolfpack to register her sixth double-digit scoring performance this season. Graduate student Jordyn Oliver nearly had a double-double, as she registered nine points and a teambest eight rebounds.

The loss snaps Vanderbilt's seven-game winning streak to open the 2023-24 season, as the Commodores now hold a 7-1 overall record.

Vanderbilt outscored NC State 21-19 in points off the bench. Freshman Khamil Pierre scored a team-best eight bench points in 16 minutes of action. Vanderbilt shot 34.3% from the field against the Wolfpack, while NC State posted a 40% shooting percentage against the Commodores.

Both teams traded blows in the first quarter, as the frame featured five ties. Cambridge hit a pair of 3-pointers in the opening stanza, as the Commodores trailed the Wolfpack 13-11 after 10 minutes of play.

Vanderbilt used a 7-3 run early in the second stanza to take a 19-18 lead after Cambridge's third 3-point field goal of the half. NC State responded to Cambridge's trifecta with 11-consecutive points to retake a 29-19 lead and force Vanderbilt to call a timeout with 2:23 left before the half. Sophomore Ryanne Allen ended the drought with a 3-pointer as the Commodores went into the locker room trailing the Wolfpack by nine points at 35-26.

NC State scored the first seven points out of the half to push Vanderbilt's deficit to 16 points at 42-26 at the 8:30 mark of the third quarter. The Commodores couldn't pull to within single digits for the remainder of the quarter, as the Wolfpack took a 54-36 lead into the fourth.

Despite falling behind 26 points in the fourth quarter, the Commodores showed no quit in Raleigh. Vanderbilt was able to cut its deficit back to 16 points after Cambridge made a pair of free throws with 4:02 left to play. Cambridge's charity tosses sparked a 14-4 run that pulled the Commodores to within single digits of NC State at 70-62, which would be the final score.

                         | ST                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Blo                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                        
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 10                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | cnn                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | icai                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Blog                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 8                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 1<br>2                                                                                                                                                                                                                                                                                                                                                                                                                               | 5<br>6<br>3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>2<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>2<br>1<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 3<br>2<br>0<br>0<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 1<br>2<br>1<br>2<br>1<br>1<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>1<br>0<br>1<br>0<br>1<br>0<br>0<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 3<br>2<br>0<br>0<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 1<br>2<br>1<br>2<br>1<br>1<br>1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>1<br>1<br>1<br>1<br>1<br>1<br>15                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>1<br>1<br>1<br>1<br>1<br>1<br>15                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>1<br>1<br>1<br>1<br>1<br>1<br>15                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>1<br>1<br>1<br>1<br>1<br>1<br>15                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>1<br>1<br>1<br>1<br>1<br>1<br>15                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>2<br>1<br>1<br>1<br>1<br>15<br>chn                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 2<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>0<br>2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 1<br>2<br>1<br>2<br>1<br>1<br>1<br>1<br>5<br>chn                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 3<br>2<br>0<br>0<br>1<br>1<br>15<br>ical                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 3<br>2<br>0<br>0<br>1<br>1<br>15<br>ical                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | NASHVILLE, Tenn. – The Vanderbilt women's basketball team got career-high scoring performances from junior Sacha Washington and freshman Madison Greene, as the Commodores collected a 71-63 win over Louisiana Tech at Memorial Gymnasium on Sunday.

Washington registered a career-best 33 points in the win over the Lady Techsters. The 6-2 forward shot a blistering 75% from the field, as she became the first Commodore to score 30 or more points in a game since Ciaja Harbison's 41-point performance against Texas A&M back on Jan. 29, 2023.

Greene also established a new career-high in points scored against Louisiana Tech, as the Columbus, Ohio, native tallied 17 points off the bench. Greene made a career-best three 3-point field goals in the victory, as she has now hit at least one 3-pointer in eight of her nine games played this season.

With the victory, Vanderbilt improves to 8-1 overall on the year. It is Vandy's best start to a season since the Commodores opened the 2016-17 season at 10-1. Vanderbilt shot 44.6% from the field in the victory and forced Louisiana Tech into 24 turnovers, which turned into 27 points for the Dores.

Neither team held more than a four-point lead in the first quarter, as Vanderbilt led 19-16 after 10 minutes of play. Washington scored 11 of her 33 points in the opening frame, as she went 5-of-6 from the floor in the first period.

After Vanderbilt took a 23-18 lead early in the second quarter, Louisiana Tech knotted things up at 23-all with 5:26 left to play before halftime after hitting a trio of free throws. Vanderbilt went on a 7-0 run from that point to take a 30-23 advantage after back-to-back layups from Washington. Vanderbilt would go into the locker room holding a four-point lead at 30-26.

Vandy came out of the break on an 18-5 run to take a game-high 17-point advantage at 48-31 around the 4-minute mark of the stanza. The Commodores hit four 3-pointers in the third quarter, as Vanderbilt built a 13-point lead at 54-41 going into the game's final stanza.

Vanderbilt maintained a double-digit lead for the majority of the fourth quarter. The Dores had to withstand one final rally from Louisiana Tech, as the Lady Techsters pulled to within single digits in the closing minute before Vanderbilt pulled out the 71-63 win.

INDIANAPOLIS – The Vanderbilt women's basketball team had its best defensive performance of the season Thursday at Hinkle Fieldhouse, as the Commodores collected a gritty 51-39 victory over Butler.

The Commodores allowed a season-low 39 points against the Bulldogs. Vanderbilt collected 12 steals on the night, while Vandy forced Butler into 24 turnovers. Graduate student Jordyn Cambridge collected a game-high four steals in the win, while junior Sacha Washington added three steals.

Vanderbilt got a double-digit scoring performance from Cambridge and freshman Madison Greene. Cambridge tallied a team-high 12 points, while Greene came off to bench to score 10 points. Eight of Greene's 10 points were scored during a 12-2 run late in the fourth quarter that sealed the victory for the Commodores. Additionally, six of the eight Vanderbilt players that played against Butler scored at least six points in the two.

With the victory, Vanderbilt improves to 9-1 on the year. The Commodores are off to their best start to a season since the 2016-17 campaign, in which Vanderbilt held a 10-1 overall record through 11 games.

It was a cold night shooting inside Hinkle for both teams. Vanderbilt shot 34.4% from the floor in the victory and held Butler to 31.8% from the field. The Commodores used their size advantage over the Bulldogs to post a 42-10 edge in points in the paint. Vandy pulled down a season-high 21 offensive rebounds that allowed the Commodores to outscore Butler 15-4 in second chance points.

The Commodores played elite defense in the second stanza. Vanderbilt only allowed Butler to hit one field goal from the floor in the second quarter, as the Dores held the Bulldogs to just four points in the frame. After Butler opened the quarter with a pair of free throws, Vanderbilt went on a 14-2 run to close out the frame and take a 20-11 advantage going into the locker room.

Washington opened the third quarter with a layup to give the Commodores a 22-11 advantage. The two teams traded blows from that point, as Vanderbilt held a 31-21 lead going into the quarter media break. Butter was able to pull within four points after back-to-back Bulldog 3-pointers with 1:38 left in the frame made it a 33-29 lead for the Commodores. Cambridge sank a pair of free throws at the end of the third quarter and push the Vandy lead to 35-29 going into the fourth.

The Dores' lead tightened in the opening stages of the fourth quarter, as Butler scored five-straight points to cut the Vanderbilt lead to 37-34 with 7:55 remaining. Cambridge was able to end Vandy's drought with a layup at the 6:42 mark. However, Butler would drill a 3-point field goal on the ensuing possession to make it a 2-point game at 39-37 midway through the stanza. Freshman Madison Greene would push Vanderbilt's lead back out to double-digits, as she scored eight points over three minutes in the fourth to spark a 12-2 run to end the game and give Vandy a 12-point victory.

NASHVILLE, Tenn. – Graduate student Jordyn Cambridge recorded her fourth double-double of the season on Sunday, as the Nashville, Tennessee, native registered 23 points and 14 rebounds in a 72-50 victory over Lipscomb at Memorial Gymnasium.

Cambridge was electric all afternoon against the Bisons, as she registered her second 20-point performance of the season, while she pulled down a season-best 14 rebounds. The guard added three steals to her stat line to extend her consecutive steals streak to 49-straight games. Cambridge's 23-point, 14-rebound performance against Lipscomb marks the first time that the Nashville, Tennessee, native has recorded a double-double against an NCAA Division I school from the Music City.

With the win, Vanderbilt improves to 10-1 overall this season. It matches the Commodores' best start to a season through 11 games since the 2016-17 campaign. The victory over Lipscomb also marks Vandy's eighth-straight home win over a nonconference opponent.

The Commodores used their depth to outpace the Bisons on Sunday, as all but two players who played for Vanderbilt scored against Lipscomb. The Dores outscored LU 27-9 in points off the bench, led by freshman Khamil Pierre's 14 points. Pierre's 14-point effort against the Bisons matches her career-best performance in the scoring column, while the 6-2 freshman also tied her career-high in rebounds with seven caroms. Junior Sacha Washington also flirted with a double-double against Lipscomb, as the 6-2 forward grabbed 12 rebounds and scored nine points.

The Commodores shot 42.3% as a team in the victory and made a total of five 3-pointers as a team. Defensively, Vandy limited Lipscomb to just 29.7% from the floor, while the Commodores collected eight steals and forced 12 turnovers.

Vanderbilt used an early 9-0 run to build an 11-3 advantage in the first quarter. The Bisons scored seven of the game's next nine points to make it a one-possession game at 13-10 with 38 seconds left in the opening stanza. Pierre closed the stanza with a layup to push Vandy's lead back out to five points at 15-10.

Lipscomb scored the first five points of the second quarter to knot the game up at 15-all and force Vanderbilt to call a timeout. After the timeout, the Commodores went on a 24-6 run to close out the second quarter and take an 18-point lead into the locker room at 39-21. Cambridge was huge in the second-quarter run, as she scored 15 of her team's 24 points during the spurt.

Cambridge stayed hot out of the break, as she opened the third quarter with a jumper to push Vanderbilt's advantage to 20 points at 41-21. The Commodores maintained a double-digit lead for the remainder of the second half, as Vanderbilt collected a 22-point win over the Bisons.
